Dialogues With Depth Psychologists In The Age Of The Anthropocene explores this complex relationship through in-depth dialogues with leading depth psychologists. The book offers a unique perspective on the environmental crisis, drawing on the insights of thinkers such as Jung, Lacan, Hillman, Buber, Sloterdijk, Haraway, and Latour.

The dialogues in the book cover a wide range of topics, including:

- The psychological roots of the environmental crisis
- The role of psychotherapy in addressing eco-anxiety and climate grief
- The need for a new ecological consciousness
- The potential of depth psychology to contribute to a more sustainable and just future

Dialogues With Depth Psychologists In The Age Of The Anthropocene is an essential read for anyone interested in the psychological dimensions of the environmental crisis. It offers a unique perspective on the challenges we face, and provides insights into how we can work together to create a more sustainable and just future.

Praise for *Dialogues With Depth Psychologists In The Age Of The Anthropocene*
