Materials

- Seashells (cleaned and dried)
- Lamp base (table lamp, floor lamp, or hanging lamp)
- Lamp shade (optional)
- Hot glue gun and glue sticks

- Sandpaper (optional)
- Paint or clear sealant (optional)

Step-by-Step Instructions

1. Prepare the Seashells

Begin by cleaning and drying the seashells thoroughly. If necessary, sand any sharp edges or uneven surfaces to create a smooth base for gluing.

2. Design the Lamp

Lay out the seashells and experiment with different arrangements until you achieve the desired design. You can create patterns, overlap shells, or form clusters to create a unique and eye-catching lamp.

3. Attach the Seashells

Apply hot glue to the base of each seashell and carefully attach it to the lamp base. Hold the shell in place for a few seconds to ensure a secure bond.

4. Fill in Gaps (Optional)

If there are any gaps between the seashells, you can fill them with small pieces of seashells or other decorative materials such as beads, crystals, or dried flowers.

5. Add a Lamp Shade (Optional)

If desired, you can add a lamp shade to your seashell lamp. Choose a shade that complements the design and color of the shells to create a cohesive look.

6. Seal and Enhance (Optional)

To protect the seashells and enhance their appearance, you can apply a clear sealant or paint them in a desired color. Allow the sealant or paint to dry completely before using the lamp.
