

# Protecting And Expanding America's Most Popular Social Program: Medicare For All

Medicare is a vital social program that provides health insurance to over 60 million Americans. It is one of the most popular programs in the country, and for good reason. Medicare provides high-quality, affordable health care to seniors and people with disabilities. It is a lifeline for millions of Americans, and it makes our country a more just and equitable place.

Despite its popularity, Medicare is under attack. The Trump administration and Republicans in Congress are working to dismantle the program. They are proposing cuts to benefits, raising premiums, and making it harder for people to enroll. These changes would harm millions of Americans and make our country a less healthy place.

We must not let them destroy Medicare. Medicare is a vital social program that provides health insurance to over 60 million Americans. It is one of the most popular programs in the country, and for good reason. Medicare provides high-quality, affordable health care to seniors and people with disabilities. It is a lifeline for millions of Americans, and it makes our country a more just and equitable place.

We must fight to protect and expand Medicare. We must ensure that all Americans have access to quality, affordable health care. We must make Medicare a single-payer system, so that everyone can get the care they need, regardless of their income or employment status.

Medicare provides a number of important benefits to its beneficiaries. These benefits include:

- **Comprehensive coverage:** Medicare covers a wide range of health care services, including hospital care, doctor visits, prescription drugs, and preventive care.
- **Affordable premiums:** Medicare premiums are affordable for most beneficiaries. In 2020, the average monthly premium for Part B (which covers doctor visits and other outpatient services) is \$144.60.
- **Low deductibles:** Medicare deductibles are also low. In 2020, the deductible for Part A (which covers hospital care) is \$1,408.
- **No out-of-pocket costs:** Once you reach your deductible, Medicare covers 100% of the cost of most covered services. This means that you will not have to pay any out-of-pocket costs for your care.

Medicare is a valuable social program that provides high-quality, affordable health care to millions of Americans. It is a lifeline for seniors and people

with disabilities, and it makes our country a more just and equitable place.

Medicare is under attack from the Trump administration and Republicans in Congress. They are proposing a number of changes that would harm the program and its beneficiaries. These changes include:

- **Cuts to benefits:** The Trump administration has proposed cutting Medicare benefits by \$450 billion over the next ten years. These cuts would affect a wide range of services, including hospital care, doctor visits, and prescription drugs.
- **Increased premiums:** Republicans in Congress have proposed raising Medicare premiums for wealthy beneficiaries. This would make Medicare less affordable for millions of Americans.
- **Making it harder to enroll:** The Trump administration has made it harder for people to enroll in Medicare. They have shortened the enrollment period and made it more difficult to get help with the enrollment process.

These changes would harm millions of Americans and make our country a less healthy place. We must not let them destroy Medicare.

We must fight to protect and expand Medicare. We must ensure that all Americans have access to quality, affordable health care. We must make Medicare a single-payer system, so that everyone can get the care they need, regardless of their income or employment status.

There are a number of things we can do to fight for Medicare. We can:

- **Contact our elected officials:** Let our elected officials know that we support Medicare and that we oppose any cuts or changes to the program.
- **Join a grassroots organization:** There are a number of grassroots organizations that are fighting to protect and expand Medicare. We can join these organizations and support their work.
- **Vote:** Vote for candidates who support Medicare and who will fight to protect the program.

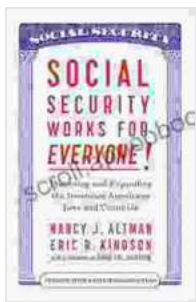

We must not give up on Medicare. Medicare is a vital social program that provides health insurance to over 60 million Americans. It is one of the most popular programs in the country, and for good reason. Medicare provides high-quality, affordable health care to seniors and people with disabilities. It is a lifeline for millions of Americans, and it makes our country a more just and equitable place.

We must fight to protect and expand Medicare. We must ensure that all Americans have access to quality, affordable health care. We must make Medicare a single-payer system, so that everyone can get the care they need, regardless of their income or employment status.
